# ABOUT ROCKBUSTER

Rockbuster Stealth has been a global leader in the movie rental service. With a changing climate into the movie rental business, Rockbuster wants to launch a new data driven strategy by leveraging its current movie license and moving more towards an online platform to compete with Netflix and Amazon Prime in the industry

# KEY QUESTIONS AND OBJECTIVES

What are some of the movie rental statistics (rental rate, cost, duration)?

Which countries are Rockbuster customers located in?

Which movies contributed the most/least to revenue gain?

Sales figures by region/country

Which genres and ratings of movies had the most success?

# CURRENT MOVIE RENTAL STATISTICS

- While only 1 movie (Rugrats Shakespeare) falls under one of the top 3 genres (Action), 50% of the top 10 movies are rated **PG-13**

# MOST PROFITABLE COUNTRIES

Top 10 Countries by Sales and Number of Rentals

The top 3 countries with the most rentals and profits are India, China, and the US, all with over \$100K in sales and over 950+ total rentals. These same 10 top profitable countries, are the same 10 countries with the most customers

# INSIGHTS AND RECOMMENDATIONS

1

India, China, and the US lead the way in terms of strongest lifetime customer base. These 3 countries should be the primary focus for all future campaigns and planning for new releases and promotions

2

More marketing efforts and resources should be tailored around Asian countries as well, because 7 of the top 10 most profitable countries are in Asia

3

Rockbuster might consider acquiring more titles in the Sports, Animation, and Action genres, and those that are rated PG-13 as well. These are the most rented and popular types of titles from a global perspective.

4

Rockbuster should also invest in technologies for streaming their titles since they already have licensing to their movies. This will ensure they can compete with other streaming services like Netflix and Amazon Prime.
